

## Roach Gel Preparation

- ☐ **DO NOT SPRAY AEROSOL INSECTICIDES**

### Preparation for Treatment

- ☐ Remove all items from countertops
- ☐ Non-food items can be placed in another room and covered with a sheet.
- ☐ All food must be in the fridge or in sealed plastic containers.
- ☐ Vacuum, mop or dry sweep the kitchen floor.
- ☐ Wipe down kitchen counter on the morning of treatment.

### Post Treatment

- ☐ Do not leave any food out in kitchen.
- ☐ Promptly wash any dishes with food residue.
- ☐ Keep kitchen clean and tidy for at least three weeks.
- ☐ You should start to see improvement within days, however we recommend waiting at least 3-4 weeks to see full effects.
- ☐ If the problem persists past three weeks, please speak with your property manager or management office.
